Climate Friendly – the 6 Rs of Zero Waste

Refuse, Reduce, Reuse, Repair, Rot and Recycle; these are the **"6 Rs"** that make up the principles of Climate Friendly Zero Waste. By following these principles, we can make small changes in our daily lives to reduce our waste and promote a more sustainable future. Here is a diagram of the 6 Rs with some practical tips:

Bring Your Own Container Update

“Bring your own container and refill it here” stickers are now displayed in many grocery shops, market stalls and cafes in and around the town. These outlets are encouraging customers to bring their own containers or reusable bags to be refilled. Look out for this sticker:

You can refill plastic containers, bottles, jam jars and reused plastic bags and even use beeswax wraps for things like cheese. Don’t forget most cafes will fill reusable coffee cups and water bottles.

There are also the town’s three drinking water fountains and bottle refill stations located at:

- Sladesbrook Play Area
- St Margaret’s Car Park
- Culver Close Recreation Ground (behind the Pavilion)
