Zero Waste Newsletter July 2025

Electronic recycling at B&Q and sale of refurbished electric tools

B&Q now offer recycling of electrical and electronic items at their stores including the one in Trowbridge.

What can you recycle?

- Small electronics (e.g., toasters, kettles, hairdryers, small electrical tools such as drills)
- Light bulbs and fluorescent tubes
- Batteries

Click here for more information: https://www.diy.com/services/weee

B&Q also now offer refurbished electrical items and tools for sale online here.

Wiltshire Digital Drive

Wiltshire Digital Drive refurbishes and redistributes second hand tech (laptops, computers, tablets and phones) free of charge. Refurbished items are distributed to those who need it most, for instance in schools or by elderly people. To date they have saved nearly 9,000 tech items from landfill and refurbished and redistributed nearly 4,000 to those in need.

There are Digital Drive donation stations dotted around Wiltshire and one here in Bradford on Avon. Phones, laptops, computers and tablets (ideally along with charging cables, keyboards and mice) can be dropped off at the Town Council Office at Kingstone House between 9-4 pm Monday – Friday.

For more information about how to donate see here:
